

Key Largo Bike and Adventure Tours

We completed our First Annual Hemingway Century Tour July 19th, 2014. The tour started at our bike shop with 17 riders. We left at 7:45 AM and the group road to Sea Bird Marina in Islamorada for our first hydration station.

We then went over the 7 Mile Bridge and had lunch at Veterans Park on the beach at the 40 mile marker. The group jumped in the ocean and rinsed off at the showers before having lunch.

Our third stop took us to No Name Pub for a drink and some pictures.

We made our last stop and regrouped at Baby's Coffee at the 15 mm for for some coffee and water.

We took it into the southermost marker for our photo op as a group. Afterwards, our group gathered their running shoes and paddle board equipment. There was not much time in between. By the time we paddled and ran, we were toast. But not too tired to go out on the town. Our last group made it to their rooms at 4 AM.

It took us an average of a little over 8 hours to make the ride with the stops. Riding time was 6 hours 45 mins

Our group had riders from Islamorada, Key Largo Boulder Colorado, Ft Lauderdale, Miami, Coral Gables, the Bahamas and Ireland. We even had a 17 year old rider.

One group came from the Wolfpack Tri Club, we had a couple who owned Senor Frogs in the Bahamas and Cozumel and one rider who helped draft the Aaron Cohen Law that is now in affect in Florida
